Re: Sylvia Dellar Survivor's Trust  
Former City of Sacramento Landfill

---

Todd:

Thank you for your time today. We were pleased to participate in your inspection of the former City of Sacramento landfill.

As we discussed, the Sylvia Dellar Survivor's Trust worked closely with both Kleinfelder and Doug Veerkamp General Engineering, Inc., to perform the requested grading work in response to concerns expressed by your agency. I understand that you will be generating an inspection report as a result of today's site visit and would like to request a copy of the same as well as copies of the color photographs.

Thank you again.
